CloudControl Migration QuickStart Service

Service overview

Entrust CloudControl Migration QuickStart Service gives you access to an Entrust Professional Services team member for the deployment and configuration of CloudControl 6.x appliances to migrate from existing CloudControl 5.6 production systems. This service is delivered over five contiguous days either remotely or on-site.

Approach

Our approach is informed by years of experience installing, configuring, and deploying CloudControl. This includes:

- Validation of design
- Best practice product configuration
- Knowledge transfer and discussion of CloudControl key features, function, and operation
- Troubleshooting tips

Scope

Over the period of five contiguous days, Entrust Professional Services will help to migrate the following settings from your existing CloudControl 5.6 to CloudControl 6.x:

- Up to 5 role-based access control policies
- Up to five secondary approval checks
- One compliance template (HIPAA, PCI, NIST, etc.)
- Multi-factor authentication (PingFederate)

This service is limited to 25 hosts, two CloudControl instances (1 high-availability pair), and one vCenter. Services will be delivered either remotely, or on–site in one location, over a contiguous five-day period. This service can be used for production or lab environments.

BENEFITS

- **Quick time-to-value.** Our consultants' product expertise accelerates deployment
- **Deployment aligned to industry best practices.** You gain the benefits of our extensive knowledge base of product optimizations and optimal configurations
- **Mitigation of potential installation issues.** We move quickly past implementation roadblocks and work seamlessly with product support on your behalf
- **Knowledge transfer on functionality and troubleshooting.** Your team gains experience with CloudControl quickly and effectively with personalized knowledge transfer from our consultants
