Entrust School ID Systems

Protect your students, staff, and budget

ENTRUST

SECURING A WORLD IN MOTION

OVERVIEW

The best value in school ID systems

They provide critical security. They improve efficiency in the cafeteria and media center. They even boost school spirit. Photo ID cards are an essential part of schools across the country. The affordability of Entrust school ID systems makes it easier to justify the cost of implementing photo IDs in your school.

“Our ID card solutions are based on over 50 years of experience.”

SOLUTION HIGHLIGHTS

Proven ID card solutions

Entrust delivers proven ID card solutions to K-12 schools based on over 50 years of knowledge and experience working with the education community.

Enhanced security. When students, faculty, and staff wear photo IDs printed on Entrust systems, you can know at a glance who is authorized to be on campus.

Flexible applications. Beyond security, you can use the same IDs for access control to buildings, labs, computers, and networks. One ID card can be used to check out media center materials, access computers, and manage student meal programs.

A dependable investment. Every day, schools are faced with the challenges of improving security and managing student services – all within budget. Entrust ID systems are cost-effective solutions to simplify and safeguard life at your school.

Simplified operations. Both Entrust identification software and our ID card printers are easy to learn and operate. School staff and volunteers can start issuing cards after just a few minutes of training.

A sense of community. With a versatile ID system, you can create visitor passes, sports schedules, student conduct reminders, and creative tickets for dances and special events – all with accurate school colors.

KEY FEATURES & BENEFITS

Get everything you need from Entrust

Security, facilities, activities, budget – a lot of factors influence a school ID system. An authorized Entrust provider can help you evaluate all of them. Our providers are experts at working within your security, technical, and budget requirements. They'll design the right ID system for your school, using industry-leading system components from Entrust.

Entrust ID card printers deliver best-in-class performance and reliability.

- Easy to learn and operate with intuitive, soft-touch LCD control panels
- Advanced card handling minimizes jams while driving full-color print speeds up to 250 cards per hour
- Cards and ribbons load in seconds to keep long print jobs moving
- Can be field-upgraded for functions such as magnetic stripe, proximity, and smart card encoding

Entrust identification software makes producing ID cards easy.

- Design cards to show photos, text and bar codes, school colors, and mascots
- Exchange cardholder information with databases and enrollment systems
- Expand with modules for proximity and smart cards, and visitor management
- Choose the edition that fits current needs; then upgrade to add more capabilities

Entrust Certified Supplies support more reliable card printing.

- Full-color printer ribbons produce clear, vibrant image quality
- Engineered and tested for total compatibility with Entrust printers
- Intelligent Supplies Technology™ reduces ribbon waste, prevents errors, and automatically adjusts printer settings for optimum output

Responsive, local support helps you get the most from your Entrust system.
